RE: Valero Refining-Texas, L.P.

John,

The URL for you to submit your FOIA online request is:

<https://foiaonline.regulations.gov/foia/action/public/search>

At this time I do not know if Lubrizol has submitted a FOIA online request for copies of these documents. Therefore, to expedite your receipt of the requested document copies I suggest the narrative of your FOIA online request should be as follows:

Redacted copies of all documents from CES Environmental Services, Inc. and from Port Arthur Chemical & Environmental Services, LLC that are currently in the possession of EPA, Region 6, Superfund Division.
